Janus Announces AT&T and PTCRB Certification of their Dual SIM LTE910CF v18.00 CAT1 Embedded Common Footprint "CF" Cellular Modem

Aurora, IL – Janus Remote Communications, an industry leader in the design and manufacture of precision IoT products and solutions, is pleased to announce PTCRB and AT&T "end device" certification of their DUAL SIM LTE910CF v18.00 Category 1 Common Footprint (CF) Embedded Cellular Modem. Integrating Telit's LE910-NA1 SSKU LTE module as their cellular engine, the AT&T centric firmware supports operation in LTE bands B13, B12, B5, B4 and B2, with fallback to 3G HSPA+ networks as needed.

Easily integrated into any new or existing hardware applications via its standard 49-pin DIP configuration, the LTE910CF is a cost-effective solution for LTE IoT (Internet of Things) connectivity. Users can choose to mount the devices directly onto their PC Board or simply mount in a DIP socket or header. Their footprint compatibility with other Janus products removes the worry of obsolescence.

Janus Cat1 modems are lower power, lower bandwidth units specifically designed for IoT applications. Customers can anticipate lower costs for both hardware and data services for these devices. Two SIM card holders allow the user access to two different cellular networks, reducing the fear of poor coverage.

The Janus LTE910CF v18.00 units with their "end device" certification provide customers with the fastest possible route to market and are ideal for use in any IoT telemetry and Telematics applications including fleet and asset management, vending, security, health and safety, remote monitoring, e-maintenance and many telemetry applications.

About Janus

Janus Remote Communications provides state-of-the-art wireless products and services as well as custom design solutions for the global IoT marketplace: www.janus-rc.com. Janus solutions are widely used by customers in the areas of asset, process, facility and energy monitoring and control; health, safety and security; and in a host of commercial wireless products. Janus is a division of The Connor-Winfield Corporation: www.conwin.com.

For more information on Telit, visit: www.Telit.com

Cost: $115.00 each at 500 piece quantity
