POTSwap Managed Services

The Janus Remote Communications Managed Services program provides POTSwap customers with a full lifecycle management solution. Voice and data services, equipment rental, and solution technical support covered in a single, per-device, monthly contract. Remove the hassles and worries of aging and obsolete technology, high value equipment asset depreciation, and equipment downtime from your day. Choose from a wide variety of available Janus plans or customize a plan for your precise requirements. Janus will mix and match POTSwaps, accessories and services to meet customer needs.

POTSwap Managed Services Program Benefits:

- ✓ POTSwap Integration Support
- ✓ Cost Savings vs. Standard Monthly Plans
- ✓ POTSwap Configuration Services
- ✓ Equipment Obsolescence Mitigation
- ✓ Single Point of Contact for Support
- ✓ Ongoing Firmware Updates
- ✓ Voice and Data Service Monitoring
- ✓ Equipment Repair/Replacement Services
- ✓ Technology End Of Life (EOL) Reporting

The POTSwap includes several cellular carrier and regulatory approvals and certifications, as stated in our Product Briefs, User Manuals, and other documentation. Ultimately, the customer is responsible for ascertaining and abiding by the Federal, State and local laws, regulations and other requirements regarding the application in which they will deploy the POTSwap.
