### Janus Remote Communications Announces PTCRB Certification for their new GSM/GPRS “Plug-In” Terminus

**Aurora, IL** – Janus Remote Communications, a leader in the M2M (machine to machine) communication products and services, announced today that their GSM865CF “common footprint” plug-in GSM/GPRS modules achieved PTCRB end product certification.

Adding to their highly successful line of cellular modems and terminal products, the Janus Plug-In Terminus modules allow users to quickly and easily add cellular connectivity to any existing or new applications. With PTCRB certification, users need no further certification for their end products. The common footprint design affords users the option to change back and forth between cellular networks as their communication needs change.

The GSM865CF offers TCP/IP stack access via AT commands and full FOTA management capabilities. The 2.5” x 1.4” x 0.365” open frame “DIP Type” design has a operational temperature range of -40° to 80°C, sensitivity of  $\leq -106$  dBm and an input voltage range of 4.75 to 5.25 VDC. The Terminus GSM865CF is ideal for use in fleet and asset management, security systems, telemetry, telematics, remote monitoring systems, remote meter reading, vending machines or any other M2M applications.

Janus currently supports three different network communication modules in their common footprint design: GSM/GPRS (2.5G), CDMA (3G), and UMTS (3G). Development is currently under way for an HSPA (4G) footprint compatible solution. Janus is proud to use Telit GSM/GPRS technology in the Terminus Plug-In modules.

Telit is a global leader in the field of M2M communications and develops, manufactures and markets M2M modules which enable machines, devices and vehicles to communicate via wireless networks. Telit offers stand alone devices to completely embedded systems. Janus Remote Communications not only partners with Telit, incorporating Telit products in Janus modules, but distributes Telit products as well. [www.telit.com](http://www.telit.com)

## About Janus

Janus Remote Communications provides state-of-the-art wireless products and services as well as custom design solutions for the global M2M marketplace. Janus solutions are widely used by customers in the areas of asset, process, facility and energy monitoring and control; health, safety and security; and in a whole host of commercial products. Janus solutions span the six pillars of M2M; remote monitoring, RFID, sensor networking, smart services, telematics and telemetry. [www.janus-rc.com](http://www.janus-rc.com). Janus is a division of The Connor-Winfield Corporation. [www.conwin.com](http://www.conwin.com)

## About Telit

Telit Wireless Solutions, a subsidiary of Telit Communications PLC (AIM: TCM), is an internationally leading specialist in wireless machine-to-machine (M2M) technology. Telit is the only company worldwide to offer communications modules for all of the various wireless technologies: it develops, produces and markets modules for GSM/GPRS, UMTS/WEDGE/HSDPA, CDMA and Short-Range RF applications. M2M applications rationalize business processes by enabling machines, equipment and vehicles to communicate with each other via mobile networks.

Telit products are used all over the world and marketed via Telit's offices in Brazil, China, Denmark, France, Germany, India, Israel, Italy, Korea, Spain, the Republic of South Africa, Russia, Taiwan, Turkey, the UK and the USA. Telit's global distributor network comprises specialists in wireless technologies and enhances the customer experience in over 56 countries worldwide. Further information about Telit and its products can be found at [www.telit.com](http://www.telit.com).

In Telit's open Technical Support Forum clients receive assistance with their questions from the Telit Technical Support Team at any time. Furthermore, the open forum acts as an invaluable technical knowledge database for the entire M2M community. <http://www.telit.com/en/services/technical-forum.php>

Get a deeper insight into the M2M world with the new *telit2market* magazine at [www.telit.com/ebook](http://www.telit.com/ebook).
